Megaflow® AW Ultra-Clean Hydraulic Oil

Phillips 66® Megaflow AW Ultra-Clean Hydraulic Oil is a high-quality anti-wear hydraulic oil developed for use in industrial and mobile hydraulic systems that require an oil with a high level of fluid cleanliness. It provides the same performance benefits as Megaflow® AW Hydraulic Oil, plus it is filtered to a typical ISO Cleanliness Code of 17/15/11 for use in hydraulic systems with tight tolerances where particle contamination can cause operational problems.

Megaflow AW Ultra-Clean Hydraulic Oil is formulated to provide excellent wear protection for hydraulic pumps and motors, and to protect hydraulic system components against rust and corrosion. It has excellent oxidation resistance and thermal stability at high temperatures to minimize deposit formation and provide long service life. It has excellent water-separating properties to minimize the formation of emulsions, and is resistant to excessive foam buildup that can cause poor or sluggish hydraulic system response.

Megaflow AW Ultra-Clean Hydraulic Oil meets the performance requirements of all major hydraulic pump manufacturers, and is recommended for use in all types of high-pressure, high-speed hydraulic pumps.

Applications

- Hydraulic systems on industrial, mobile and marine equipment, especially where particle contamination can cause operational problems
- Automated machine tools
- Hydraulic elevators, hoists, presses and floor jacks
- Marine cargo winches and steering systems
- Service station lifts
- Air tools and other pneumatic equipment lubricated through air line lubricators
- Chain drives
